

One Team. All Your Digital Transformation Solved.

About Us

IntelData is a leading provider of D365 Finance Operations, Dynamics Power Platform, Azure Foundry, and cutting-edge AI Agentic BOT services for modern enterprises. We deliver end-to-end digital transformation solutions that combine AI-driven automation, scalable cloud infrastructure, and seamless enterprise integration—helping businesses optimize operations, reduce costs, and accelerate growth.

AI Voice Agent Capabilities

IntelData now offers a fully automated AI Voice Agent that answers and places customer calls in real time, delivering human-like conversations at scale. The solution handles inbound and outbound calling, supports multiple languages, and integrates with your existing systems to improve response rates and increase conversions.

24x7 Call Handling

Answers every customer call, any time.

Human-Like Conversations

Sounds natural and responds like a human.

Multilingual Support

Speaks Kannada, English, and Hinglish fluently.

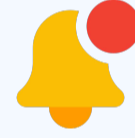

Omnichannel Integrations

Connects seamlessly with CRM, WhatsApp, and website.

Automated Lead Qualification

Qualifies and tags leads during live calls.

Smart Follow-Ups & Reminders

Auto-dials customers for follow-ups and reminders.

Noise-Optimized Telephony

Delivers clear audio, even in noisy environments.

Fast Go-Live in 2–3 Weeks

Deploys complete AI Voice Agent in weeks.
